

## **BRAND NEW DAY – LYRICS**

### Rolling Along

Life isn't easy it's uphill believe me  
Whether you're weak or you're strong  
Sometimes you feel like you're back on your heels  
And everything's going all wrong

Through the confusion and all disillusion  
Somehow life still goes on  
I found a cure I know works for sure  
And we just keep rolling along

So bring on the trouble and burst every bubble  
I promise it won't change a thing  
I always find that my peace of mind  
Still flies like a bird on the wing  
What's going to happen is still going to happen  
The one thing that you can count on  
Don't fix what ain't broken while Willie's still smoking  
We'll just keep rolling along

When everything fails I relax and inhales  
'til all my worries are gone  
So there's my cure and it works for sure  
And we'll just keep rolling along

### Brand New Day

Baby tomorrow's a brand new day  
We're going to love all our troubles away

I don't want to live like a ghost from the past  
You're not the first but you will be my last

There'll come a time when all of your dreams  
Will all disappear like a thief in the night  
(A thief in the night)  
It's never too dark to keep out the light  
There's never a wrong that you couldn't make right  
(You couldn't make right)

Baby tomorrow's a brand new day  
We're going to love all our troubles away

There's always a doubt and always a fear  
That maybe this time it's all really over  
(It's all really over)  
It's more than a game I don't want to lose  
There'll never be another like you  
(Another like you)

### Easy as It Seems

Things are getting crazy, I beg to understand  
The more I think I know, the more I know I can't  
So tell me what the point is with everything you say  
Nowhere near the truth almighty a bunch of nothing said

Do you want to get mean?  
Do you want to get cruel?  
Do you think it's wise  
To play the fool?

Take a look around you, it's easy not to see  
Building walls between us doesn't fix a thing  
Ignorance is blinding, they tell you that it's bliss  
They've been saying that for ages, so will you answer this

Do you want to get real?  
Do you want to have dreams?

Nothing more than this  
Easy as it seems

### I Think of You

A moonlight serenade  
The melody that's played  
Like memories on parade  
I Think of you  
And who could second guess  
Those nights without regrets  
That no one could forget  
I think of you

I see your face lying beside me  
And then the trace of your kiss on my lips  
Always reminds me...

Walks on the boulevard  
Two lovers arm in arm  
Lost in each other's charms  
I think of you

Those words you said to me  
A lover's poetry  
For all eternity  
I think of you...  
And as the years go by  
These memories are mine  
I think of you

---

### Goodnight Waltz

Here I stand before your eyes  
I'm just a man who's realized  
Another dream has come to light  
So I'll say goodnight

I'll say goodnight to you  
I'll say goodnight to you  
So farewell but not goodbye  
So I'll say goodnight

Time has come and gone too soon  
Tomorrow brings another tune  
I'll sing them all 'til the day I die  
So I'll say goodnight

---

### Damned (If You Do)

Your heart tells you yes  
But your mind tells you no  
You can't seem to find  
Which way you want to go  
The moment before  
You let yourself go  
You'll laugh just to think  
You'll do it even though

You're damned if you do  
And damned if you don't  
Damned if you will  
And damned if you won't

And sure as you are  
Of lessons you've learned  
Decisions you've made  
Will all be overturned  
But life all alone  
Is a life unfulfilled  
You may not miss the hurt  
But you sure do miss the thrills

---

## I Will Be Yours

If you should want to, or ever need to  
Find yourself someone who would be true  
I know the right one, to be that someone  
And he has fallen in love with you

If you surrender to love so tender  
Until forever I will be yours  
Don't ever leave me, darling believe me  
Until forever I will be yours

Though time is borrowed, every tomorrow  
Will bring us closer than yesterday  
And so remember each night together  
We'll see our heaven's one dream away

## Ride with Me

When I'm in New York City, I never sleep a wink  
When I'm in New York City, I never get to sleep a wink  
But when I cross that river all I want to do is drink

Well I have been to Chicago, they said it was the promised land  
You know I've been to Chicago, they said it was the promised land  
When I arrived as a child they promised that I'd leave a man

Phoenix, Arizona; Memphis, Tennessee  
Southern California, Washington DC  
I gotta go...a whole world to see  
So pack your bags up baby  
Come along and ride with me

I'm gonna get to Kansas City  
And make my way to 12<sup>th</sup> and Vine  
I'm going to get to Kansas City  
And make my way to 12<sup>th</sup> and Vine  
Where all the girls are pretty

But I already made one mine

Well Amarillo Texas is just around the bend  
Off to Albuquerque on the road that never ends  
I gotta go... a whole world to see  
So pack your bags up baby  
Come along and ride with me

The night down in the quarter that ended in a fight  
Someone got their ass kicked no matter who was right  
I gotta go...a whole world to see  
So pack your bags up baby  
Come along and ride with me

---

### I Wish You Well

This is where the road divides  
This is where we have to say goodbye  
Say goodbye

After all that we've been through  
How I wish for more than this to say to you  
This to say to you

Here's to all the good times  
That we've ever known  
To the memories  
Yours and mine alone

Now you lie before me  
Like a star that fell  
Oh I wish you well  
Oh I wish you well

For the Ages

For the ages...that's what our love will be  
For the ages...through all of history  
For the ages...who could ask for more  
For the ages...that's what our love is for

I've never known a love to make me feel like this  
I've never tasted wine sweeter than your kiss  
I've never seen a star shining in the sky  
Nearly half as bright as the twinkle in your eye

For the ages...that's what our love will be  
For the ages...through all of history  
For the ages...who could ask for more  
For the ages...that's what our love is for

I've always wondered where  
A love goes when it's gone  
I've always wondered how it goes on and on  
I've always wondered why I was never true  
I never thought I'd change  
But now that I'm with you
