SPOTLIGHT TRACK

Aaron Watson
Outta Style
(Big Label Records)

A great-fitting pair of jeans; a cold bottle of domestic beer; great music. Some things just never go out of style. Aaron Watson might be known for his Red Dirt sensibilities and Texas-centric music, but "Outta Style" will appeal to any region's tastes.

With an almost John Cougar-esque clap-along intro and a driving rhythm section, this cut would be in style in any decade or state. The up-tempo track highlights an underlying story of a love that never goes "outta style" through the years. "If a melody / Is like a memory / You're a long, hot summer night symphony / Blarin' on the speakers of my Monte Carlo / Down FM 109 on my FM radio / We can take it slow / Put it on cruise control / You know it's been a while // We're never goin' outta style / I was thinkin' / While the sun is sinkin' / Low we could go all night / Never goin' out of style in my Chevy / Parkin' at the levy / Getting' hot and heavy after all this time / The trends will come and go / The winds of change will blow / The way we love is never goin' outta style." It doesn't matter if it's your first date, your first anniversary, or your first year of retirement together -- great, true love never goes "outta style," and neither will this Aaron Watson hit.
