

Turnpike Troubadours A Long Way From Your Heart Press Highlights

"... 'A Long Way From Your Heart' is poised to propel the Troubadours further into the mainstream." - Rolling Stone Country

"[Evan] Felker has evolved into a Red Dirt Springsteen, deftly blending autobiographical elements with complex, hardscrabble characters, each united in the midst of sun, spit, and dust." - Garden & Gun

"The sound of the road permeates the latest release from The Turnpike Troubadours, a hard-charging six-piece band out of Oklahoma that's been honing its earthy sound for four albums now — and would displace some of the schlock at the top of the country charts in a world with a little more justice." - Associated Press

"Like Jason Isbell, Drive-By-Truckers and older alt-country acts such as Whiskeytown and Son Volt, Turnpike Troubadours are grinders, quietly making albums you'll want to spin from start to finish." - Relix

*"Strummy acoustic guitar-led tracks, supported by folk/country/rock backing could apply to thousands of similarly styled Americana outfits. It's how this one massages the formula that makes them one of the finest on the scene."
★★★★ - American Songwriter*

The band pulls off the kind of curiously strong character sketches that could make even Springsteen jealous..." ★★★★★ - Blurt

"If you're a country music fan who loves a good story and you're not listening to the Turnpike Troubadours, you're doing it wrong." - The Boot

"The Turnpike Troubadours are the greatest band in country music right now, and 'A Long Way From Your Heart' very well might be their best record yet." - Saving Country Music

"The interesting lyrical perspectives, paired with the amount of depth and detail behind each song, flag Evan Felker as one of the greatest songwriters in America right now... Turnpike Troubadours fit levity into these songs, weaving a complex patchwork of emotions that makes 'A Long Way from Your Heart' deeper and more nuanced than it seems on first listen." - Chorus.fm

"...Felker and Co. have crafted a record like a small town. 'A Long Way From Your Heart' is an experience you ease into. You spend some time with it, you start to feel at home; you start to recognize people on the street. Soon, you don't want to leave." - **No Depression**

"[Evan Felker] has built a career out of crafting stories rich with detail, empathy and meaning. And on the Troubadours' latest album, 'A Long Way From Your Heart', the stories are as rich as they've ever been." - **Austin American-Statesman**

"To the uninitiated, think 'Ramblin' Fever'-era Merle Haggard with just a trace of Alabama's country-pop shine and a stiff shot of Old 97s' country punk. To those already on board, rest assured that the band's climb continues with their lyrical intelligence and barnstorming musical grace intact." - **Lone Star Music Magazine**

"Strap yourself in and get ready for an exhilarating ride. This Oklahoma-based roots-rock unit soars on its fourth release." - **Country Standard Time**

"Like William Faulkner's fictional Yoknapatawpha County, Turnpike has Eastern Oklahoma.... 'A Long Way' is a maturation in their already strong sense of storytelling." - **Wide Open Country**

"They just might be the best band in America right now." - **TwangriLa**
