OLD CROW MEDICINE SHOW For many artists — like Harry Styles, who admitted to booking an entire tour in order to play there — the Ryman Auditorium in Nashville is holy ground. Old Crow Medicine Show, an old-school string band and unlikely major-label signee, has performed there more than 40 times over the past two decades, and will honor the storied concert hall with a new album of songs recorded live on its stage called “Live at the Ryman.” With selections borrowed from Ma Rainey and the Carter family, the album mines the American roots tradition. (Columbia Records via the Orchard; Oct. 4.) *HORN*
