

Gimme Radio – Biography

Founded by digital music veterans from Apple Music, Google Play, Beats Music and Rhapsody, Gimme Radio (www.gimmeradio.com) is the ultimate music service for the true music fan. As the only online music service designed with the idea of community and to “serve the underserved”, Gimme Radio delivers listeners music from the past, present and up-and-coming acts. Gimme Radio launched its first community in June of 2017: the world’s first 24/7 metal-focused service (also available for iOS and Android app). Fans tuned in to hear world class DJs playing metal they can’t hear anywhere else - for free. And Gimme Radio allows the fans and the DJs/artists to communicate directly with one another in a live feed, real time, as the music is being played.

Gimme Radio currently offers the unique musical experiences of Gimme Metal and Gimme Country with upcoming plans to expand genres and launch new channels within genres. Gimme Radio believes in the passion of the music community to give its listeners great programming - not algorithms. That’s why every song played on Gimme Radio is hand-selected by the musicians, music journalists, producers, labels and tastemakers that music fans already know and trust. Gimme Radio is also dedicated to building a community of fans within the service. On Gimme Radio, listeners, DJs and artists can all engage in a conversation around the music - as it’s playing. And Gimme Radio’s business model puts the focus back on the music: selling vinyl records of whatever the DJ is playing, and offer other collectible goods that fans crave.
