

Trampled By Turtles – *Alpenglow* Press Highlights

“While Wilco broke new ground for rock and country music in its own ways and means, Trampled is clearing new trails for acoustic and roots acts, redefining the sonics of the string-music world” - Rolling Stone

“‘Alpenglow’, the band’s 10th album, is an artfully curated listening experience that lives up to the band’s live performances... Trampled By Turtles lays down tracks with lasting power.” - No Depression

“The album ‘Alpenglow’ finds the band from Duluth, Minnesota in what may be their finest form yet” - Goldmine

“... ‘Alpenglow’ is an affecting album, one that creates a supple sound from its blend of fiddles, banjos, mandolins and musings. Indeed, it’s hard to imagine a more emotive offering overall.” - Holler.

“... the 11-song collection is Trampled’s first record in four years. It will also probably go down as the group’s best-loved LP since 2012’s ‘Stars and Satellites,’ the one that made the all-acoustic, Duluth-reared sextet stars on the national festival and outdoor venue circuit.” - Minneapolis Star Tribune

*“‘Alpenglow’ is decidedly radiant in a most gratifying sort of way.” ★★★★★
- Rock and Roll Globe*

*“This latest LP would be a great fit for fans of the quirky indie folk by The Decemberists, the working-man approach to songwriting by Jason Isbell, and the picturesque storytelling of Bob Dylan. ‘Alpenglow’ is a stunning achievement for a band who continues to push the envelope of their creativity in new and interesting ways.”
- Chorus.fm*

“... Trampled By Turtles is progressing the future of both bluegrass and rock forward. They prove you do not have to fit neatly into either box and we should hope they never do... possibly their strongest album to date.” - Bluegrass Unlimited

“When the last chord has been plucked, know this: Trampled By Turtles have a masterpiece on their hands with ‘Alpenglow’ – perhaps one of the absolute best of 2022, and not a moment too late.” - The Amp

“Call them bluegrass. Call them folk or Americana. Call them whatever you want, but when Trampled By Turtles take the stage, something magical happens that’s hard to quantify... the songwriting of frontman Dave Simonett puts them in a different stratosphere and classification.” - Saving Country Music

“Each song has enough hook to make it memorable. The band & producer [Jeff] Tweedy have trimmed off the fat that can sometimes accumulate in this genre. There’s a vintage feel but nothing old-fashioned or retro. It’s a well-disciplined set...”
- Americana Highways

“... an album that is sure to have lasting power” - Grateful Web
