Hey there! It's time for some music discovery. Here's what you need to know:

Last one for today is the incredible debut album *Things I've Said Before* from Nashville-based guitarist and singer-songwriter Remi Goode. She writes with honesty and curiosity, digging into the truth of her relationships. Her music blends classical influences, a pure vocal tone, and the warm sound of a nylon-string guitar. Easily one of my favorite records of the year so far. Favorite tracks: *Short Circuit*, *For The Record*, *Might Not Be True*
