OLD CROW MEDICINE SHOW ANNOUNCE JULY 1ST
RELEASE OF *REMEDY* VIA ATO RECORDS

BAND ANNOUNCES BIGGEST HEADLINING TOUR TO DATE

"SWEET AMARILLO", FIRST SINGLE, OUT NOW + ALBUM
AVAILABLE TO PRE-ORDER

Nashville, TN – Heavily celebrated Grammy Award winning band Old Crow Medicine Show has announced their upcoming new album *Remedy*, due out July 1 via ATO Records. *Remedy* is full of catchy melodies, quirky and often humorous lyrics, all executed with mesmerizing musicianship. Ten years after the massive success of folk anthem "Wagon Wheel", which started as a track on a Bob Dylan work tape later finished by fiddler/band leader Ketch Secor, *Remedy* features a new Dylan/Old Crow penned collaboration on the new track "Sweet Amarillo" one of the album's many highlights. *Remedy* also features the return of producer Ted Hutt (Flogging Molly, Dropkick Murphys, Gaslight Anthem), who produced 2012's highly praised *Carry Me Back*.

Long before the resurgence of folk and roots rock, Old Crow Medicine Show was performing their fiery style of amped up old-time music, cultivating a diverse fan base who thrive on the band's energetic performances. The songs on *Remedy* are chock full of the same raw energy, swagger and drive that has made rabid fans of everyone from hipsters to college students to traditional music purists. "This is country music for people who think country music needs a whoopin" says Secor, who adds, "Country music that knows how deep its roots run--- from the dirtiest blues to the folkier folk, the songwriters, the crooners and the Outlaws, to the Opry stage; it's all here". Kicking off with "Brushy Mountain Conjugal Trailer", a new take on the classic prison tale, the band then launches into the hyper speed "8 Dogs 8 Banjos" a timeless original that could have been penned ages ago, but with more fire. Though Old Crow Medicine Show is loved for their fast and furious up-tempo numbers, they shine brightly on the ballads including the touching "Dearly Departed Friend" and Critter Fuqua's "Firewater".

In support of their upcoming release, the band has announced their biggest headlining tour ever with stops including Red Rocks, The Verizon Wireless Amphitheatre (Atlanta), The Philadelphia Folk Festival and London's incredible performance space The Roundhouse. Opening acts for the tour include critically praised folk duo Shovels & Rope, Hurray For The Riff Raff, and Parker Millsap who will be opening all of the band's UK dates. For a complete list of tour dates see below.

Old Crow Medicine Show's story is truly one of building a career from the ground up. While busking in the North Carolina town of Boone, they were discovered by folk icon Doc Watson. Since then the band has toured the world, received mass critical praise, and sold over 800,000 albums. The band's single "Wagon Wheel" received the RIAA's platinum certification for selling over one million copies, and they were recently asked to become the newest members of the Grand Ole Opry. The band was also a part of the *Big Easy Express* tour and documentary along with Mumford & Sons and Edward Sharpe & The Magnetic Zeros. They were awarded a Grammy for "Best Long Form Music Video" for their part in the film.

One of many things that set Old Crow Medicine Show apart is the way they have earned the respect of both their peers and influences while also influencing the new guard of folk-rock revivalists. While trends have come and gone, Old Crow Medicine Show continues to be a strong and steady force in roots music.

"Sweet Amarillo," the debut single is available now at all digital retailers, including iTunes and [Spotify](#). The album can pre-ordered at [iTunes](#), Amazon and on the [band's website](#).
